MONITORING & SAFETY PROTOCOLS:

GPS Tracking:

All buses are equipped with GPS tracking which enable us to monitor the bus speed, route, idling, harsh breaking etc.

CCTV/DVR Recording:

All buses are equipped with cameras and DVR recorder. DVR recorders are continuously recording during the journey. This helps us to track incidents as well as to monitor the behavior of our staff.

We have a detailed internal system where bus is checked and monitored for mechanical, electrical, maintenance, cleanliness, air conditioning performance work etc. Special attention is paid to tires to ensure that they are in good conditions at all times to avoid breakdown and accident.

PRE – TRIP INSPECTION

To ensure clean and fully functional vehicles, our drivers and their supervisors inspect the exterior & interior of the buses, under the hood inspection and road check before each journey.

POST – TRIP INSPECTION

After every morning drop off, at least 3-4 persons check the bus to ensure that there is NO CHILD LEFT BEHIND. These checks and inspections are carried out by the bus attendants, bus drivers, school security and the school supervisor.

BACK-UP & EMERGENCIES

We ensure that there are standby drivers and buses to meet any emergency.
